

CAREER AND TECHNICAL EDUCATION

Connecting K-12 Career Preparation to the Workforce

Today's cutting-edge, rigorous, and relevant career and technical education (CTE) programs address all 17 career clusters, including the new energy career cluster, and prepare students for high-demand, high-wage careers in established and emerging industries.

These CTE programs rely on state funding for the important work they are tasked with—for equipment, teacher professional learning, credentialing, programs at the Governor's STEM Academies, and new initiatives. Continued and additional state funding is needed.

To highlight some of the data:

- ✓ CTE class enrollments number nearly **708,000** each year, with over 293,849 Virginia students taking at least one CTE class annually through
 - 358 Virginia high schools
 - 383 Virginia middle schools
 - 50 CTE centers
 - 22 Governor's STEM Academies
 - Nine Governor's Health Science Academies
 - Eight regional CTE centers

- ✓ 125 Virginia school divisions offer **CTE dual enrollment**

- ✓ Each year, students earn over **147,000 credentials** through occupational competency assessments, state licensure examinations, industry certification examinations, and workplace readiness skills assessments relying on funding that has not increased since 2016.

- ✓ High-quality **work-based learning opportunities** for students in high-demand, high-wage jobs, supported by school-based WBL coordinators, include apprenticeships, internships, clinical experiences, and recognized school-based enterprises.
